Rag Money Worth 86.11-The Treasury Sale-Rise in the English Bank Rate-Governments Steady.

WALL STREET, THURSDAY, OCL 21-6 P. M. If the stock market to-day is carefully analyzed and compared with recent figures it will be found that the activity and strength are represented by Lake Bhore, of which 116,000 shares changed hands, with an advance from 56% to 60% and the closing price at 69%. How much of this large business is legitimate and how much is the result of a "washing" process it is impossible to say, but that it was not an entirely natural improvement is attested by the fact that it failed to communicate sympathy to the rest of the market and was not followed by a corresponding exhibition of strength. In other stocks the average decline was about equal to the average advance. Even Pacific Mail, of which some 45,000 shares were sold between 39% and 39%, receded at the end to 39%. Western Union improved to 76%, after opening sales at 75% and closed at 75%. Ohio and Mississippi became suddenly active, and fluctuated widely, receding from 16%, to 15, then moving up to 17%, and, at the last, selling off again to 16%. Northwest common ranged from 85% to 38% and closed at 35%. The preferred stock rose to 50%, after sales at 49%. Michigan Central advanced from 58 to 59% and closed at 68% bid and offered at 50, St. Paul to 33%, preferred to 62%, and Erie to 16. There was a reaction of % to % per cent in the final dealings. Union Pacific was firm at 67% a 68. The earnings of the company are reported large, both in freight and passengers. Missouri Pacific sold at 13 and afterward down to 11, closing at this price. The forthcoming report of the committee will, it is said, be maging in character, and some of its former friends are predicting lower prices. The management certainly have a good deal to answer for. Atlantic and Pacific preferred, the lessor of the Missouri Pacific, declined to 5. The dividend paying securities like New York Central, Delaware and Lackawanna, Bock Island, New Jersey Central and others show both steadiness and strength, and are not likely to be sacrificed to the temptations of any such market as has been made for certain "fancies" during the last week. It is possible that when the revival of trade is fairly under way a real and healthy influence will be felt by all railways, East and West, but until then it is the safest policy of the outside operator to "stand from under."

THE GOLD MARKET.

Gold opened at 118%, declined to 118%, and recovered to 118%, at which it closed. The borrowing rates were 1-16, 5-64, 3-64, 1-32 and 1-64per diem and 3 per cent per annum. The decline was somewhat influenced by cable advices that the White Star line steamer Adriatic, which sailed from Liverpool to-day for New York, took out £31,000 sterling and that \$3,000 in specie were sent to New York by the steamship City of Berlin, which called to-day from Liverpool. At the closing price of gold rag money was worth 85.11. There are various indications that the large holders of gold have been recently selling. The bids at the Treasury sale to-day aggregated \$1,870,000. The following is a list of the awards :-

This sum is to be devoted to repairs, An. After the reorganization new first mortgage bonds are to be issued to redeem the present first mortgage bonds. The other issues to be stock in redemption of past due coupons, and the coupons for the first three years on the first mortgage bonds; income bonds to second and third mortgage bondholders; and scrip to third mortgage bondholders and stockholders This plan was adopted, and Mr. Halsted was authorized to appoint a committee to carry it into effect.

WALL STREET NOTES.

SOME PACTS ABOUT THE STERLING LOAN ON PACIFIC MAIL STOCK-THE STOCKWELL SET-TLEMENT AND A PROMISED STATEMENT PROM MAY, 1873-A "BULL" MARKET, WITH PHILA-DELPHIANS PAYING THE PIPER.

The statement made exclusively in these Notes of yesterday of the rumor that the Pacific Mail Steamship Company had "negotiated a loan with Brown Brothers & Co. for £100,000 sterling on their stock" was the subject of much comment in the brokers' offices yesterday, many designating the report as a canard à trois becs, a "mare's nest," &c. It now seems, however, that the only inaccuracy was the statement that the loan was made on the company's stock, instead of stock of the company (in private hands), and that the amount of the sterling loan should have been £200,000, instead of £100,000. An evening paper says:-"The immediate cause of the decline in sterling yesterday was the sale of a large amount by leading bankers on an exchange transaction covering £200,000. It was rumored also that the holders of the Pacific Mail stock borrowed a large amount of exchange to get time money." It is no uncommon affair in

GREAT STOCK MOVEMENTS
for large leans to be made in the manner indicated; besides, it shows great shrewdness in the Pacific Mail "bulls" to have negotiated exchange. If they sold their gold on Wednesday at 116% and can cover their sterling bills within sixty days at a profit, as is most likely to be the case when the cotton and wheat crops are moving Europeward, exchange will tend down-

are moving Europeward, exchange will tend downward, and they will have the use of the money, for their great operations, for nothing!

The determined demand of the Herald upon the railroad and other corporations for a monthly or quarterly statement of their business seems likely at length to meet with some response. It is said the Pacific Mail directors will to-morrow issue a report and detailed statement which shall be more than fragmentary. The document, it is believed, will reveal THE REAL CONDITION OF THE COMPANY, as it will give the receipts and expenditures of the corporation since the Stockwell administration wens out and the Hatch management went in. If the company—as is now claimed by its friends—has since May, 1873, built and equipped eleven new iron steamers and paid for them out of the earnings, it is time the public and stockholders should be made properly aware of the fact.

fact.
Mr. George S. Scott, the Vice President of the company, sails for Europe to-morrow, ut is supposed to-close THE STOCKWELL NEGOTIATIONS.

THE STOCKWELL NAGOTIATIONS.

There seems to be no question that the former President has made overtures to the company to pay a large sum of money for a release from all vexations litigation on the part of Pacific Mail directors. If Stockwell settles, King, the famous lobbyist, may be in order texts. PHILADELPHIANS "SHORT" OF LAKE SHORE

PHILADELPHIANS "SHORT" OF LAKE SHORE.

As indicated in this column, the new pool formed in Lake Shore and Western Union was ready for work. It showed itself yeaserday and sent prices up "booming," as in the "buil" times previous to the panic of 1873. Certain speculators of the Quaker City—one of whom is said to be the brother of the president of one of our bankrupt railways—have been heavily "short" of Lake Shore and Western Union, and yesterday one house bought in 18,000 shares of stock for their account alone, and it is said they have yet a short line of 10,000 shares to cover. Names were freely used in Wall street among the brokers, but for obvious reasons they are omitted here.

TWO SHALL FAILURES took place in the Stock Exchange, on account of the great rise in Lake Shore. Is an example, as in the case of Union Pacific. Many persons who would not buy at 52 were free purchasers at 59 and 60 yesterday. The soundest advice to men of little means is to let

THE TITANS OF EPECULATION
fight their own battles and not aid them by throwing in slender purses as prizes for the victors on the field of Manmon.

BUTTERICK & CO.'S AFFAIRS.

The statement made in yesterday's HERALD to the effect that E. Butterick & Co., fashion publishers and pattern manufacturers, had failed, is incorrect. It is true that the firm has been somewhat embarrassed through the failure of a large number of agents to meet their obligations at the appointed time and by reason of heavy and unusual expenses incurred during two years. A the past two years. A branch house was opened some time ago in Londen, which, having only recently become self-supporting, absorbed an immense amount of capital. The establishment of a printing office with ten or twelve large presses, and the publication of a literary paper, were also severe drain apon the resources of the firm. It is now stated that time alone is required to meet all obligations, and that a compromise sufficiently formal to be considered lasting and conclusive was yesterday arrived at with the principal creditors. The business will go on as before, and all claims be justly and amicably settled.

THE CLEWS FAILURE.

The examination into the affairs of Henry Clews & Co. by Mr. Lees, before Edward Ketchum, Register in Bankruptcy, No. 139 Fulton street, which was set down for yesterday at two P. M., has been again adjourned.
Mr. Clews was present at the appointed time. It is now
confidently expected that the case will come off next
Saturday at two o'clock, without any further delay.
